

MAKE A LEGIONARY BADGE

Legions used pictures of real, or pretend, animals as their emblems. They would put these pictures on the distance slabs to show who built each section of the Wall. The distance slabs were probably painted in bright colours. Why not choose your favourite emblem (picture of an animal) below. Or, if you want to join the Legio VI Victrix, why not design your own animal? Print off this page, cut out the circle and stick it onto card. Colour it in, then sticky tape a safety pin onto the back. Which Legion will you choose?

Legio VI Victrix

We don't have any evidence on the stones for what their symbol was. Can you design one below?
