

HOW TO MAKE YOUR OWN LEGIONARY SWORD

1. Print and cut out either the black and white or the coloured sword template in A4 or A3. Stick it down onto a piece of thin card. If you have printed the A4 one, remember to cut out the handle separately and stick it to the end of the sword.
2. If you have chosen the one to colour in yourself, colour it in now.
3. Carefully cut around the edges of the sword through the card. Then head out and pretend to be a Roman Legionary!
