

THE ARCHAEOLOGIST

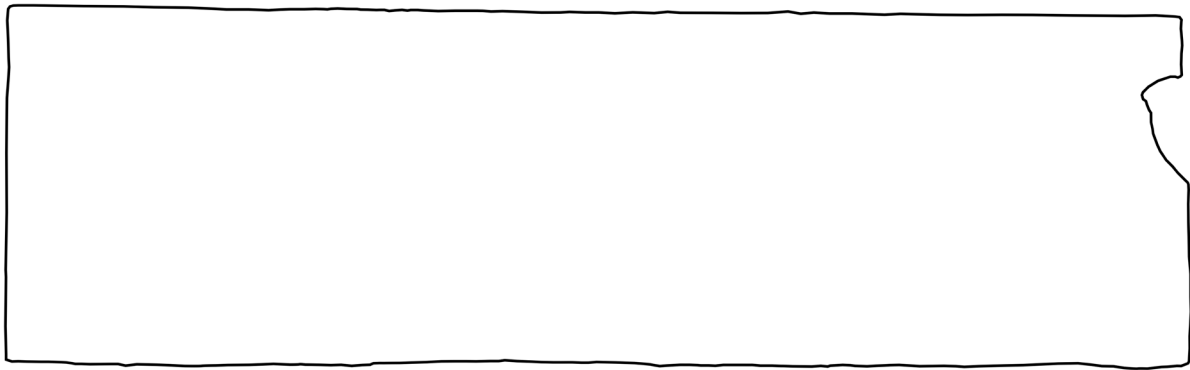

Name _____

Date _____

You are an archaeologist, working on the Antonine Wall. You are very excited because you've discovered some pieces of carved stones which you think might be two of the special distance slabs which showed who built each section of the wall.

A) Can you try and join up these pieces to make two stones?

Stick them together in these frames to make the stones complete again.

A Roman
horseman

VEX LEG XX
= Twentieth
Legion

A tied-up
enemy

B) Well done! Now you have to work out what you've found. Look at the pictures. Can you find these things? Draw a line to each.

C) In the space below, describe one of the things that you think is happening in the pictures.

D) In pairs, work as an interviewer and an archaeologist for a TV or newspaper report. Explain what you have found, and why you think it is important.
